Avionics Wireman & Industrial Technician Training

Do you enjoy working with your hands?
Are you mechanically inclined?
Do you have a great attention for detail?
Find a career as an Avionics Wireman, Audio/Video or Industrial Electrical Technician

You will receive 320 hours of classroom and hands-on instruction in Industrial Maintenance Electrical & Instrumentation (IME & I) & Avionics training that is designed to meet entry-level requirements to enter the manufacturing or avionics field. Upon successful completion of this training, you will receive a nationally recognized certification from the National Center for Construction Education and Research (NCCER). Your name will be entered into a national database where some of the world’s largest organizations can go to review your transcripts for the training you have received.

Training Includes:
- Electrical Theory
- Alternating Current
- Introduction to Valves
- Pumps & Drivers
- Fasteners & Anchors
- Material Handling
- Construction Drawings
- Gaskets & Packet
- Safety
- Professional Development
- Introduction to Avionics, Electrical/Electronics
- Common Maintenance Practices
- Aircraft Fundamentals
- AND much more!
